

# Cloud Computing Club Application

April 15, 2024

## Personal Information

**Name:** Robert Chong **ID:** 123y **Hometown:** Singapore

## Application Questions

**Why are you interested in Cloud Computing?** I am interested in cloud computing because it represents a fascinating and crucial field within technology, essential for driving broader technological outreach and innovation in the future. It's a subject that captivates me with its potential to transform how we interact with technology on a global scale.

**What experience or skills do you have related to Cloud Computing?** I am currently taking a module in cloud computing, which has provided me with a foundational understanding of the subject. Additionally, I have worked on several projects involving chatbots, which allowed me to apply some cloud computing concepts in real-world applications.

**What do you hope to achieve by joining the Cloud Computing Club?** By joining the Cloud Computing Club, I hope to deepen my knowledge of cloud computing and explore its vast possibilities. I am eager to expand my horizons by learning from peers and industry experts, and to contribute to the club's projects and initiatives.
